## Get ready for Danish road toll from 1 January 2025

Check if you need to pay toll

See where and what you have to pay in toll

Do you often drive on Danish roads?

You can also buy a digital KmToll ticket

This way, you avoid fines

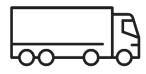

You must pay toll if your truck weighs 12 tons or more and is registered for freight transport, as a motor vehicle for hauling semi-trailers or with special permits.

Read more about weight

vejafaifter.dk/en/weight.

Is your truck one of the vehicles that does not have to pay toll?

See the rules at vejafaifter.dk/en/whohas-to-pay.

Your kilometer-based toll depends on where you drive, and whether you drive in a low emission zone.

See where you have to pay at vejafgifter.dk/en/whichroads.

The toll is also calculated based on your truck's weight and CO2 emission class. See prices at vejafaifter.dk/en/howmuch-do-i-have-to-pay.

Then it is easiest to pay through a provider that can offer satellite-based GNSS equipment in the form of a road toll box or possibly an app.

The road toll box or app must be ordered and installed before 1 January 2025.

See which providers you can contact at vejafaifter.dk/en/seewho-to-contact-aboutanss-equipment.

through a provider, you must buy a KmToll ticket prior to driving on vejafaifter.dk/en/digitalkmtoll-ticket.

If you do not pay toll

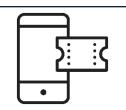

Your license plate will be automatically read and checked for whether you have paid the road toll through a provider or a KmToll ticket.

If you have paid the correct road toll, you avoid a fine of DKK 4.500.

See more about control and fines at vejafaifter.dk/en/fines.
